PRESIDENT'S MESSAGE

3rd WVPA Africa and Middle East Meeting- İstanbul, 2026
“Sustainable Poultry Production from East to West”
September 2–4, 2026 – Swissôtel The Bosphorus Istanbul
www.wvpa2026istanbul.org

Dear colleagues and dear Friends,

The Turkish Branch of World Veterinary Poultry Association is honored to present the 3rd WVPA Africa and Middle East Meeting which will take place on September 2–4, 2026, at Swissôtel The Bosphorus, Istanbul. This prestigious event will gather over 800 veterinary professionals, poultry producers, academics, and industry stakeholders from more than 25 countries to address the challenges and opportunities in poultry health, explore the latest developments, innovation, production efficiency, and regional cooperation.

The Turkish branch of WVPA is a professional organization established on March 14, 1996, became a member of the World Veterinary Poultry Association (WVPA) one year later. With over 25 years of experience, Turkish branch of WPA has organized numerous national and international events with leading academic, governmental, and commercial partners. Among these events, the most significant was the 14th World Veterinary Poultry Congress (WVPAC), which was successfully held in Istanbul in 2005 with over 1,200 participants.

Building on this experience, our association applied to host the 3rd WVPA Africa and Middle East Meeting, a biennial event organized under the framework of WVPA. After the second meeting was held in Cairo, we proudly represented our country and Türkiye has been granted the right to hold the 3rd WVPA Africa and Middle East Meeting in Istanbul from September 2 to 4, 2026, hosted by the WVPA and the Turkish Branch of the World Veterinary Poultry Association. With the theme **“Sustainable Poultry Production from East to West,”** the congress will focus on critical topics essential to the sustainability of the poultry industry—particularly in Africa and the Middle East—including infectious diseases, control strategies, epidemiological status, gastrointestinal disorders and their impact on performance, climate change, water scarcity, emerging and re-emerging diseases and emerging technologies. The congress will feature more than ten internationally renowned invited speakers, ensuring a strong focus on the latest scientific developments aligned with the theme. We expect to welcome over 800 participants.

We believe that becoming a sponsor and partner of this congress will provide you:
Direct access to decision-makers and industry leaders, brand visibility across two continents, networking and business development. Furthermore, it will offer you acquire knowledge across all scientific disciplines, follow developments in practical applications of new techniques and processes, and discuss these with leading experts in poultry science.

We look forward to partnering with you to make this congress a great success.

Sincerely

Prof. Dr. Pınar Saçaklı
Chair of the Congress

WHY BECOME A PARTNER

BRAND VISIBILITY - INCREASE BRAND AWARENESS

Sponsorship places brands in front of large audiences delivering recognition ensuring that your brand is synonymous within the industry. Given the impressive global impact, your brand would be aligned with positive press and social media coverage before, during, and after the event and deliver unrivalled visibility.

NETWORK EXPANSION

Given the global presence at such an event, sponsorship delivers an opportunity to develop business relationships and generate quality leads. The event will be a great channel to actively network with participants and other professionals.

TARGET MARKET

As a sponsor you will be able to gain exclusive opportunities to engage one on one with key influencers and leaders within the market place.

INCREASE YOUR REACH

Opportunity to reach out to a larger audience across a mix of communications channels including email, direct, digital, social media and content marketing and public relations.
